

1<sup>st</sup> May 2025

Dear Parents,

As the Manchester sunshine has decided to make an appearance (yes, it really does happen!), we are taking steps to ensure that all our pupils are well protected during the warmer weather.

Children can bring in their **Forest** baseball caps to wear during outdoor activities. These are currently in stock at Tru Uniform.

We also recommend that sunscreen is applied **before** coming to school. For children who are likely to rub off their sunscreen during the day, a small, named roll-on dispenser can be sent in if necessary, and kept in their bags, so they can top it up if needed. Many brands now have long-lasting products so this should only be sent in as an additional precaution should you feel it necessary.

Please note that Nursery and Kindergarten have their own sun cream policy as per the Early Years Education Guidelines. Staff apply cream to the children as and when necessary. This is kept in the classroom as a universal cream unless children have specific product requirements.

Thank you for helping us keep everyone safe and sun-smart while enjoying the summer sunshine - let's hope it remains!

Yours sincerely,

G Booth
